

WindView

Wireless Wind Speed Display with
Large LED Readings & Alert

Read at a Glance

6-inch LED display stays sharp in bright sun or low light, with 3 brightness levels built for any crane cab or jobsite condition.

Act Before It's Unsafe

80 dB buzzer & flashing display trigger when wind speed exceeds your set limit, alerting you to pause the lift, not just notice the number.

Always-On Display

AC power supply keeps the display fixed on-site and running continuously, with no battery to charge or replace.

Long-Range Wireless Wind Speed Display

Max 500 meters

Live wind speed & alerts

Wind Sensor

- Wind speed measurement
- IP67 all-weatherproof
- 3 years battery life

WindView Display

- LED numeric display supports wind sensor's full measurement range
- Wind speed units: mph, km/h, m/s
- Wireless signal indicator
